The Complete Edging Solution

PVC

## PVC

An inexpensive yet hardy edging available in large continuous rolls for efficient, trouble free edgebanding. Recommended by hotmelt edgebander manufacturers and chosen by customers Australia-wide, **PVC** is the material that helps keep edgebanding costs under control in many woodworking applications.

### Advantages

**Continuous roll form** – optimizes edgebanding speed whilst minimizing offcuts and wastage.

**Trims cleanly** – eliminate that costly extra step after edgebanding of finishing-off sharp and jagged edges with a file.

**Resistant to chipping** – no last minute repairs required when installing jobs or finishing manufacturing.

**Inexpensive** – great value compared to other edging materials.

**Variety of sizes** – whether you are a manufacturer or a reseller, we have the potential to supply lengths and widths to suit your needs.

### Application

**PVC** edging is recommended for application using hotmelt edgebanders. It is possible to apply **PVC** by hand with contact adhesive or using hot air edgebanders. However excessive heat can lead to degradation of material.

Most edgebanders' trimming devices will cut **PVC** edging cleanly without difficulty. **PVC** can also be trimmed easily using a sharp blade or handheld edge-trimmer.

For best results when applying unglued **PVC**, we recommend **EDGEBOND** granulated and cartridge hotmelts, available ex-stock from Consolidated Veneers.

### Range

**PVC** edging is available ex-stock from Consolidated Veneers or from one of our distributors in a range of sizes listed below:

<b>Standard widths:</b>	21mm
<b>Other widths:</b>	30mm and 40mm
<b>Standard roll sizes:</b>	White Unglued - 400m Colours Unglued - 300m Prints Unglued - 300m
<b>Standard thickness:</b>	0.4mm * Nominal

*Please note other widths are available upon request. Minimum quantities apply.*

A limitless range of non-stock designs are available run-to-order with colour-matching if required based on volume enquiries.

**Please contact Consolidated Veneers or visit the Consolidated Veneers web site for further information and details of our distributor network Australia wide.**
